

# Short Shorts

Linda Hall, Junior, won a place in the All State Band. Tryouts were held in Murdo, February 5.

She plays the alto saxophone and has been since the seventh grade. She attended Philip High School in Philip, last year, and enjoys Riggs this year very much.

What did you say? Girls' P.E. classes are playing volleyball with a cage ball? But why?

Mrs. Heer, girls' P.E. director, has adopted using a cage ball for volleyball for a few days. The main reason was to help strengthen the girls' arms. It was enjoyed very much by all. When we tried to play with the true volleyball and the true size, it didn't seem right. The true volleyball looked like the size of a softball and felt like a balloon!!

Wrenda Herther won a Presidential Citation Scholarship from Dakota Wesleyan University, Mitchell, South Dakota.

This scholarship is only open to outstanding Methodist seniors in South Dakota. Ten of these awards are awarded each year to outstanding seniors. The scholarship is a renewal stipend of \$500 a year and amount to a total of \$2,000 for each recipient.

The Riggs High Gumbo staff and editor Betsy Kelly, can breathe a sigh of relief and settle down to a semi-normal school routine once more, now that the March 15 deadline has been met and the Gumbo has gone to State Publishing Company for printing.

Seniors have been busy ordering their name cards and announcements. The school is furnishing twenty announcements for each senior, and any extra needed were to be ordered at Foreshews. The company that is handling the orders for name cards is Josten's. Name cards were to be ordered in multiples of one hundred. The girls got the large name cards and the boys, the small cards.

Some of the extra items that they could order were paper memory books, paper appreciation gifts, souvenir announcement covers, and boxes of thank you cards.

The record "Don Lonie Talks with Teenagers" belonging to Mr. Paul Rivoire was played during all study hall periods Tuesday, February 16th. The record lasting approximately 50 minutes caught the attention of all, being a frank discussion with typical young adults, describing and criticizing their good and bad points.

Some girls in the Home Economics department are really sewing away. They are trying to complete their garment before it is time to move on to other projects or fields. Of course, they sew with rapidity and caution and are very careful not to sew their fingers to the garment!

The Kuder Preference Test was given in the study hall Tuesday, February 16. The test given to seniors was voluntary and is an interest test which helps to show the different types of vacations a person would be best suited for. The test itself took 45 minutes and about 20 minutes to score. This was done by the students. The profile sheets contained the interpretations of the scores and gave examples of jobs which would be of interest to students.

The movie "Viking In Action" was shown by Mrs. Carl to her Job Preparation class February 18th. This movie was an introduction to the beginning of the banking industry and of how it has progressed and carried on through the years.

Ours isn't the only "Governor". We receive a "Governor" which is published weekly by the news writing classes in a large high school in Honolulu, Hawaii on our exchange list.

We have a large exchange list. We receive school papers from 32 high schools in South Dakota. Five colleges, Aberdeen, Spearfish, Brookings, Rapid City and Springfield, send us their papers.

We receive school papers from 15 out-of-state high schools. Nebraska, New York, Minnesota, Michigan, Tennessee, Pennsylvania, Hawaii, Arkansas, Arizona, and North Dakota are represented. We receive out-of-state college papers from St. Paul, Minnesota, Moorhead, Minnesota, and Omaha, Nebraska.

We send papers to the high schools; but not to the colleges.

If anyone is interested in reading these school papers there are many of them in the library and in room 103.

# GOVERNOR

## Original Play Given Among One-Acts Elliott Crowned King Of Hearts

Four one-act plays, under the direction of Mrs. Pennington, were presented to the public the evening of February 24, in the Riggs auditorium.

The first, "Sorry, Wrong Number", a tragedy written by Lucille Fletcher, was directed by Karen Thompson. The actors for this play were from the drama class. Patricia Murphy was the only character on stage. Janice Newlon, Teri Harding, Eileen Disburg and Linda Hanson were the voices of the people who called the woman on stage, who was murdered.

A comedy, "The Powers That Be" had as student director Sandra Gordon. The cast consisted of two powers, played by Lynn Schmutz and Sam Adams. The people searching for help from the powers were Helen Adams, Kay Cameron and Linda Pool. Their problems were solved, but not by the "Powers That Be". This cast was made up of drama class members.

The third play was an original written and directed by Patricia Huckfeldt. This play was written as a semester project last year in drama class. Pat chose to write a play for her project and it was inspired by a dream. The play called "884-2917" had eight characters, who tried out for the parts. Paula Moore, Lynn Schmutz, Stephanie Clinton, Vada Trimble, Ray Falk, Rod Louison, Russell Stoneback, and Ed Slocum played.

Concluding the evening, a comedy called "Suppressed Desires", directed by student Kay Cameron, had as characters Steven Cyr, Cheryl Stageberg and Connie Smith. Steve received a superior rating at the one act play contest in Mobridge for his portrayal in this play.

## Peter Pan Chosen Spring Production

Peter Pan, a five scene fantasy, written by James M. Barrie, has been selected as a spring play at Riggs High. The play will be presented April 23rd at Riggs auditorium.

The play is about a Darling family in London, who fly to Neverland and back again. The casts are as follows: Nana (dog), Karen Thompson; Liza (maid), Eileen Disburg; Michael, Cevy Cole Pennington (age five); Mrs. Darling, Pam Fillmore; John, Sam Adams; Wendy, Paula Moore; Mr. Darling, John Bennett; Peter Pan, Mickey Ballweg; Slightly, Lynn Schmutz; Tootles, George Brashear; Nibs, Walter Poile; Curly, Duane Eckert; First Twin, Linda Pool; Captain Hook, Len Allen; Cecco, Janice Newlon; Bill Jukes, Terry Harding; Cookson, Kay Cameron; Gentleman Starky, Rod Louison; Skylights, Walter Graves; Noodles, Don Henrichsen; Smee, Russell Stoneback; Tiger Lily, Sandy Phillips; Mullins, Dick Harding; Crocodile, Pat Murphy; Mermaids, Linda Hanson - Sandra Gordon - Dianne Davis.

The following parts have not yet been assigned; Tinker Bell, Second Twin, Omnes, and Panther.

Mrs. Smith, art instructor, will be in charge of the sceneries.

## Go Governors!

## Cheerleaders Model New Outfits

Seated - Cheryl Cowan, Geri Misterek; Standing - Kay Cameron, Betsy Kelly, Dalene Moore, and Janet Neuarth.

Many of you may have admired the new outfits the cheerleaders were wearing at the Bismarck game.

The outfits consist of green skirts with a white pleat on each side. The tops are green jerkins with white under blouses. The jerkins have white letters on the backs of them. To go along with these out-

## Who's Who Named

The annual Who's Who Party was held Saturday evening, February 13, in the Riggs study hall. It was sponsored by the Gumbo Staff. Betsy Kelly is the 1965 Gumbo editor. The seniors who received the honors were as follows: Most Mischievous - Jim Groff and Penne Bloom; Wolf and Wolfess - Tom Noble and Karen Thompson; Best Dressed - Terry Smith and Mary Van Camp; Most Likely to Succeed - Jack Robinson and Pam Hubbard; Did Most for PHS - Dana Erickson and Betsy Kelly; Best Sports - Lyle Stuart and Nancy Neiber; Handsomest and Prettiest - Jim Flannery and Renee Long; Best Physique and Figure - Gaylord Sonnenschein and Linda Johnson; Envied Dancers - Carl Schwenn and Kathy Specker; and Personality Plus - Ron Walpole and Linda Ridgeway.

The student body votes for seniors for Who's Who every year. Senior votes count three points; junior votes, two points, and sophomore votes, one point.

## Pierre Snags 28 Firsts

"6:15", moaned the band and choir members, when they learned the time of their departure for the music contest in Mobridge, February 17. Although a few students secured car rides to the contest, the majority had to brave the bus. However, despite bruises received from cramped seating arrangements, rumpled clothes, tight schedules, slushy streets, moments of confusion, and more than one case of nerves, Pierre returned home with 28 superiors, 10 excellents, and 79 very tired contestants.

KING BURTON ELLIOTT

Burton Elliott was crowned King of Hearts at the annual ball given by Job's Daughters at the Masonic Temple, Saturday, February 20. He was crowned and received gifts from Betsy Kelly, Honored Queen. The other candidates were Bob Brown, Dana Erickson, Bob Moore, Tom Noble, and Lyle Stuart.

The theme of this year's ball was "Over the Rainbow" with shades of blue predominating. Pots of gold were at the end of the rainbow. Silhouettes of the candidates were also part of the decorations. The Riveaires from Rapid City provided the music.

The King and Honored Queen led the grand march to end the ball. Senior Princess Karla Von Wald, Junior Princess Lois Snow, their guests, and the other candidates followed behind. Younger members of Job's Daughters served as waitresses.

## Juniors Choose Waiters, Waitresses

The Junior class has been busily working on the plans for the Banquet and Prom and have chosen the waiters and waitresses. These are sophomores which are chosen by a vote of the Juniors. Waitresses chosen were: Linda Douglas, Mary Schliessman, Suzette Schliessman, Gretchen Dirks, Ruth Fillmore, Paula Moore, Janet Peterson, Paula Diamond, Judy Friesman, Kathy Strudel, Linda Humphrey, Ava Stout, Kathy Mullally, and Suzanne Brumbaugh. Waiters chosen were: Sam Adams, Ray Palmer, Randy Ice, Jim Harding, Alan Weverstead, Mark Schultz, John Boussu, Ray Tobin, Wally Widboom, Robert Jeitz, Rex Ruis, and Bill Olander. The 1965 Jr.-Sr. Prom and Sr. banquet will be held on Saturday, May 1.

Commencement - - - - - May 27  
Last Day of School - - - - - May 29

Do you care what kind of a paper the school publishes? Or are you one of the students who sits back and "lets the other guy do the work", then complains when it is rated as a second-class newspaper in state competition?

Those students who do care about their school paper will help to make it a better paper. They will sign up to take the journalism class or if they cannot work this into their schedule, they will offer to help in gathering news and writing feature stories whenever they can do so. They will offer to help in the photographing of the school activities. The students who really care about the paper will buy the paper when it comes out. They will realize that a lot of work goes into each story, each page and will not gripe because the gossip columns have been omitted from the paper. If they have some criticism to help improve the paper, they will offer it to the staff, or they will write a letter to the editor. If they have a suggestion, they will offer it to the editor or advisor, who will be only too happy to accept any wise criticism or good suggestions.

Are you interested in the quality of your paper, or are you going to be a "let the other guy do it" type of student?

If you are interested in the paper, we urge you to buy the paper and to help the staff in writing up the stories. If you cannot sign up for journalism, sign up for the Governor as an extra-curricular activity and feel the satisfaction in having a real part in producing a good paper. Whichever you do, the paper will profit and the coverage of student activities will be improved.

The Editors

Hit the Books and Lick 'SPRING FEVER'!

It may be a little early but "spring fever" has come, at least to the author. Being a very individual disease, it rarely strikes two people exactly the same. Almost everyone agrees, however, that the "fever" very definitely affects school grades, (not for the better, I might add). At the first sign of melting snow, the average person takes out his "rash" along with his rubbers and promptly forgets about "readin', writin', and 'rithmetic."

Fortunately this disease can be eventually outgrown even though there are traces of it left in the adult of the species. This explains why teachers usually make slight allowances for the inattentiveness of their students at this time of year.

However, one shouldn't count on this leniency. Therefore I say, "Rise up and fight! Leave your Cinderella dreamworld and your castle in the sky! Hit the books! Buckle down and lick 'spring fever'!

SDSU Sponsors Honors Institute

Since the State University of South Dakota is again sponsoring an Honors Institute for High School Juniors, who will take this opportunity? Will you be the one to take this special privilege to a higher understanding of the two basic studies of Mathematics and English? I hope so, because this will broaden your mind in the fields and also you will enjoy it. This institution will also give you an introduction to computer science, and explore a field of your own special interests through a project.

This information was taken from a sheet passed around and if you are the one who is qualified, 'please' be part of your school and talk to the counselors. The deadline is April 1, 1965. Mrs. Carl and Mr. Flannery would be very pleased to help you with more information, so see one of them!

Are You The One Concerned With Cheating?

Cheating goes on everywhere in the world, and almost everyone has either lied or cheated once in his life. But cheating catches up with you sooner or later and in one way or another. People who cheat are only hurting themselves, whether they think so or not. There are many, many examples of this everywhere; right in Pierre and right in Riggs High School. You can be rich or poor and still be a cheater. You may think you might get away with it one little time, and you do have a good chance once or twice, but doesn't it bother you? Maybe it won't right away, but it will later and it could mean ruination right then. You will be sorry for it and ask yourself why you did it, but that will not undo it. Next time you cheat on a test or think about cheating, do think before you do. An honest person is usually a real success in life. "You don't have to be top to be honest, but you have to be honest to be top".

Written Signs Apply To Whole Student Body

During the week before the district tournament you should have noticed the signs placed on the wall of the lobby. While looking at these signs it occurred to me that these signs should remain on the wall as an incentive to students in all matters. These signs are written so that they don't apply strictly to the basketball team but to all members of the high school. If all students would follow the advice given on these signs it would make high-school life much easier for everyone.

What Will You Do After Graduation?

Every senior should be seriously thinking about what he is going to do upon his graduation. Many say, "I'm going to school, or I'm joining the armed forces", but this is just a broad answer. With graduation just a couple of months away the question would be, "What am I going to do in the armed forces or what college will I attend and what field should I enter?" Remember, it's a little late to start thinking about these things when you get there!

Who Will Buy 'Squeaky'?

Mrs. A. Smith presents Delbert Templeton with his prize the guinea pig.

"Can I have the monkey?" "Can I have the rabbit?" "Can I have the fish?" Mrs. Alice Smith, biology teacher, was besieged with questions like this when she was told all animals had to go. A drawing was held to see who would get the animals as there were more takers than animals. The monkey goes to the first person to present \$20. Doug Hillmer won the rabbit, Don Huebner, the garter snake. The little red guinea pig, "Static", went to Delbert Templeton. Walter Poile requisitioned the turtle. Angel fish went to Candy Schumacher and John Boussu. The other fish winners weren't listed. No one wanted "Squeaky" the little mouse.

Martha Exchanges Ideas

Martha Cano, Foreign Exchange student at Riggs, took part in the second annual Foreign Student panel, held in Huron. Four other foreign exchange students in this area also participated. They discussed life in their native countries and their reactions to America. Martha is from Colombia, South America. Other students taking part were Birgir Hardarson, Iceland; Jose Mirands, Brazil; Eugenio Luciui, Italy; and Engida Biru, Ethiopia. The Huron chapter of the American Field Service student exchange sponsored the panel discussion.

Do You Figure?

"John, must you always be different?"

St. Patrick Is Ireland's Patron Saint

Though Patrick is Ireland's patron saint and loved by everyone, he was not a native Irishman for he was not born on Irish soil. Considering that St. Patrick is a well-loved name in history, the facts about him are very clear and surprising. For most of the stories concerning him are flavored with bits of legend.

He was born about 387 A.D. in a small Roman town, now known as Wales. But still the opinion concerning the country he was born is still being debated upon. His family's name was Sucat. His name was Maewyn, but soon changed to Patricius. He enjoyed adventure and achievement, so at sixteen his great adventure began. Pirates captured him and sold him as a slave in a strange land, Antrim, Ireland. He worked out in the open, under the stars, as a swineherd. It is said that his six years in Ireland influenced a whole new course of life, for he wanted to free the people of that country from paganism. So with some help from an unknown caller he escaped serfdom and went home, where he was receiving his needed training; but again was captured by pirates, only this time for two months. And again an unknown caller coming from the dark mysterious forests of Ireland were bidding him for help. He returned home, again, and continued his studies. Soon he became a priest, then bishop and then statesman. In the year 431 A.D. after receiving his ecclesiastical name, Patricius, from Pope Celestine, he was sent to Ireland, according to his wishes. He landed at Wicklow Head in the Spring of 432 A.D. where many inhabitants were ready to stone him for attempting to try to convert them to Christians. He was heard though, because he explained to them that God is an omnipotent sacred Spirit, who created Heaven and Earth; and that the Trinity is contained in the Unity. Then, with still a few people, who were hesitant, he plucked a shamrock (trefoil) and asked "Is it not as possible for the Father, Son, and the Holy Ghost, as for these three leaves to grow upon a single stalk?" Then the Irish were convinced in the Holy Spirit.

St. Patrick lived his life there and accomplished to his satisfaction what he had sought to do. His almost unbelievable career came to an end on March 17th in the year 465. We celebrate his memorial still on March 17th.

Children Find Plate, 1913

- by Paula Moore

Several parties of Frenchmen ascended the Missouri River from 1703 to 1723; but whether they reached as far north as South Dakota is not known. The first real evidence that white man had reached the state of South Dakota was found by two amazed school children on February 16, 1913, while taking a Sunday afternoon walk on the hills near Fort Pierre. It was a leaden plate engraved in Latin and French; claiming this region for the French King. It had been buried on March 30, 1743, by two Verendrye brothers and their two companions, who explored western South Dakota in 1742-42. They stated in their journal that they buried a leaden plate on a Missouri River bluff in March, 1743. The famous plate is now in possession of the State Historical Society at Pierre and may be viewed at the museum.

While near Fort Pierre the Verendrye party met a man who said he had been raised among the Spaniards and could speak Spanish well. He said he had been baptized and never forgotten his prayers. He also related that a Frenchman was living three days journey distant, where he had been established many years. This man who came up the Missouri to the Arikaras in 1734 and he may have lived near Big Bend.

France founded the city of New Orleans in February, 1718, which soon became the seat of government of Louisiana Territory. Other French settlements continued to develop along the Mississippi River and its tributaries and France claimed the entire Mississippi valley eastward to the Appalachian Mountains.

Sheffer's Sharings

Winter Prom Held At Hawaii

BY CAROL

The Northern State College paper listed some Pierre graduates who were named to the Dean's Scholarships List for the fall semester. On the straight A list was Kathleen Moser, freshman. On the 3.50 list were Harley Middleton, senior; Bonnie Steffen, junior, and Pamela Brown, freshman.

The student council of Mitchell High School sponsored a dance to raise money for the John F. Kennedy Memorial Fund. An amount of \$231 was made.

In Mitchell the Physical Education classes are credited this way - Freshmen and Sophomores get 1/2 credit and Juniors and Seniors get a full credit because they take it five days a week.

Gum chewers at the Mount Vernon High School will find themselves rolling crepe paper used as decoration at the carnival. That's one way to get the job done!

The Farrington High School in Hawaii has a Winter Prom to which the sophomores are invited and also a Senior Prom.

Russian is taught at Webster High School. Members of the class furnished the program for Kiwanis Club meeting.

Mobridge voters approved a \$750,000 bond issue to construct a new junior high school.

Outstanding Girls Qualify For Crisco Award

A few weeks ago all of the girls in the Home Ec. classes were given a list, with the names of the qualifying girls for the Crisco Award for an outstanding student in Home Ec. To qualify the girls had to have completed all the courses in Home Ec. or now be enrolled in their last year. The girls could vote for any two girls of their choice.

After the preliminary ballot was taken, the following girls received 15 or more votes: Linda Barrett, Patricia Brasel, Gloria Ellwanger, Eileen Frasier, Judy Hoffman, Peggy Schumacher, Lyssa Shadrick, and Mary Van Camp.

All of these girls will put a picture and a short story about themselves on the bulletin board in the Home Ec. room and will leave these up until the latter part of March. Then the final ballot will be cast. The winner of this award will be announced on Awards Night May 19. The winner will receive the Crisco Award trophy.

JoAnn Understands

JoAnn was riding in the country with her boyfriend, who was King of the Road, when they saw The Birds and the Bees sitting in a Lemon Tree.

After they got back they were going Downtown and as they were passing the theater, JoAnn told her boyfriend, "The Jolly Green Giant is playing, now." Her boyfriend said, "I've got a Tiger by the Tail". JoAnn looked at him and then she realized what he meant. She looked down and she realized she had been cutting out Paper Tigers while they had been driving. She turned and smiled at him and he said, "Isn't that the Look of Love?" JoAnn said, "I'm nervous because I have had A Hard Day's Night." Her boyfriend said, "All you ever had in your life was Hard Knocks, haven't you?" JoAnn said, "Yes, while I was going with the Leader of the Pack, he broke my little battle of Love Pation No. 9". Her boyfriend said, "Same here, when I was going with Little Egypt, she gave me her Last Kiss and after she left, I just turned out to be a Roustabout". JoAnn said, "You must have been Mr. Lonely for a while. She must have been a Pretty Woman". "She's a Woman, alright", her boyfriend replied.

# Norton, Davis, Ice, Jacobs and Riggle Make It To State Wrestling

The Pierre Governors end their regular wrestling season with 5 wins and 7 losses. Out of the twelve varsity wrestlers five were given the right to enter the State Tournament at Spearfish by winning at Miller.

One of the wrestlers who went to the State this year was Randy Ice. Ice, a sophomore, who wrestles in the 95 lb. class, has been wrestling for two years. This year his record ended with six wins and five losses. He placed second at the Regionals at Miller. Randy stated that his toughest opponent was a boy from the Mobridge team who beat him out of first place at the Regionals. He also said he has pinned two of his opponents this year. Randy says the coach and Pierre's wrestling program is "very good".

Roger Jacobs, also placing second at the Regionals, won a trip to the State Tournament. Roger, a twelfth grader, has a record, for this year, of nine wins and three losses. In his first year of wrestling he pinned two opponents. When asked about what he thinks of the wrestling coach he says, "I feel that he is a very good coach and I admire him a lot". He says his toughest opponent was a boy from Huron.

Rick Riggle, who wrestles in the 138 lb. class, won third at the Regionals. Rick, a sophomore, is in his second year of wrestling. His record for this year is 13 wins and 4 losses. This year Rick has pinned two opponents. His toughest opponent was Curt Knight of Miller. When asked about the wrestling program in Pierre, Rick says, "We have a good coach but there could be more support."

Another wrestler placing third at the Regionals was Dan Davis, in the 165 lb. class. Dan's record is 10 wins, 4 losses and 1 tie. In his first year of wrestling he has pinned two opponents. He says the coach and wrestling program is very good. Dan's toughest opponent was a boy from Miller.

Joe Norton, a junior, wrestles in the heavyweight class. He placed fourth at the Regionals. His record during the season was three wins and five losses. He has pinned two men in his two years of wrestling. When Joe was asked about the coach he said, "He is a good coach and he works with us on our individual problems".

Others wrestling for Pierre varsity are Noel Henriksen at 103 lbs.; Raddy Hubbard at 112 lbs.; Bob Rose at 120 lbs.; Clayton Theobald at 127 lbs.; Bill Josewski at 133 lbs.; Frank Halligan at 145 lbs.; and Thomas Fargen at 154 lbs.

## Sophs End Season By Defeating Redfield

The Pierre Sophs' ended their basketball season with 13 wins and 4 losses. The biggest margin the Sophomores had over their opponent was a score of 88 to 49 for Redfield. The biggest margin the opponents had over Pierre was 65 for Pierre JV's to 45 for the Sophomores.

Bruce Bad Moccasin, a five eight and a half guard, scored 24 points against the Pierre JV's. In the last game of the season against Redfield he scored 12 points. Bruce has the best average for the year of 17 points per game. Larry Hoffman, Steve Gerlach and Comet Haraldson ranked next in having high averages. Other members on the team include George Neuharth, Rich Shangreaux, Lloyd Erikson, John Davis, Andy Gates, Ivan Dixon, Wayne Jackson, Landis Weaver, Bob Gallimore, John Porter, Roy Wise, and Bill Olander.

## Soph Intramural Scores

Widboom	6 - 5
Howard	6 - 5
Harding	6 - 5
Sherer	4 - 7
	G Pts.
Huebner	10 127
Howard	11 116
Gardner	11 113
Harding	10 112
Klinger	11 110

## Chining Bar Used In Test

The main purpose of the chin bar in the west end of the gym is to test the arm strength of the Physical Education classes. This bar is one of the tests included in the Physical Efficiency Test. This efficiency test is given about four times a year and it includes sit-ups, push-ups, squat thrust, vertical jump, standing broad jump, and chin-ups. This bar was purchased by the school board about one year ago.

## PHS Starts New Sport

Anyone for flying through the air and not knowing for sure where you're going to stop or not. Well, you may if you want because Mr. Phil Trautner Athletic Director of Pie has added a new program for boys that are interested in "TUMBLING".

At this time there are 16 boys on the team. The group doesn't have a certain time when they meet for a practice, because the gym has been in use most of the time with the basketball teams. They do hold some of their practices during the noon hour, and at night.

This course is not as simple as it may seem. You can see by looking at the picture that it takes skill. This program is not any snap because some boys have found out that they can't hack it. The boys that are still sticking with it are Bill Josewski, Jerry Brink, George Nickels, Roger Jacobs, Nick Volk, Rod Louison, Bob Schmit, Art Tourville, Mark Schultz, Jim Harding, Bruce Howard, Mike Kelly, John Burchill, Paul Mitchell, Dave Hauschild, Rich Taylor and Sam Adams.

Rod Louison is a transfer student from Rapid City. As you well know Rapid has an excellent tumbling team. The fans that followed the Governors to Rapid and saw the game will vouch for their wonderful half time performance.

The tumbling team has been performing during the half-times at some of our basketball games. If this stays in the program Pierre could have another exciting sport for a boy to join.

## Sonnenschein Sets Nets On Fire In Last Home Stand

It's a good thing it was the last home game of the year for the Governors, because the Athletic Department would have had to install two new basketball nets. After that hot shooting Gaylord Sonnenschein did against Redfield, no nets could last much longer. Sonnenschein hit 16 out of 22 shots from the field for a cool 73%.

The Governors have been working out pretty hard for the sectionals which are being held at Gregory this year. They're going into the sectionals with a 12 and 5 record. Their first opponent is Winner. If they beat Winner they will face Pine Ridge or Gregory Friday night.

Two of Pierre's losses came from overtime games. The first one came from Watertown Arrows, losing 59-57. The second heart-breaker was given to the Governors by the Belle Fourche Broncos. Pierre lost that game in 2 overtimes by a score of 50-48. By the way, the Broncos won the Black Hills Conference with a 12-0 record.

The skyscraping Rapid City Cobblers gave the Pierre Governors two other defeats for the year, the Governors losing the first game at Rapid City 57-52. The second game was played at Pierre. The Governors gave the Cobblers a run for their money till the end of the third quarter. At the end of the third quarter it was 41-40 in favor of Rapid. When the Governors came back onto the floor they were all just like ice, not being able to break their hard luck spell. When the score books were totaled up the Governors came out on the bottom by a score of 67-53.

The fifth loss was handed to the Governors by the Webster team.

As it is right now the outlook for the Governors in the sectionals is pretty good against the three opposing teams they have to meet. Winner fell to the Governors 71-55. Pine Ridge came closer by a score of 63-50. The Governors handed Gregory quite a defeat by a score of 75-29.

The Governors have out-scored their opposition this year with total points, Pierre scoring 1112 points while their defenders only scored 986.

Their free-throw shooting wasn't quite as good, hitting around a cool 54 per cent, but still staying in there plenty tough.

If the Governors can pull section 6 out of the bag they'll have to meet the winner of section 4 at 1:30 on March 18. The four teams in that Section are Mitchell, Huron, Miller, and Chamberlain. Mitchell, which is ranked third in the State, could easily be tough Pierre opposition if both teams make it.

## Volleyball Tournament Held

"With a little encouragement, you can win the tournament! So let's get hep, and show some pep!" as is read on the bulletin board in the girls' P. E. Department.

Girls' P.E. classes held class tournaments in volleyball. The team that won the most games in the classes played against winning teams of other classes Friday, the 19th, after school.

The teams that participated and the captains in the event are as follows: Netlets - Pat Mulloy vs. Vollettes - Sandy Phillips; Danna and the Seven Hoods - Danna Slauthaug vs. Ducey's Demons - Colleen Ducey. Then the two winning teams played each other: Vollettes vs Ducey's Demons. Finally, the winning Vollettes took the cheering honors!

Vollettes were as follows: Janet Peterson, Linda Douglas, Charlene O'Neill, Ava Stout, and Kathy Strudell.

According to girls' P.E. instructor, Mrs. Heer, this is only the beginning tournament for many tournaments to come in the future years.

Volleyball, like basketball, was invented in the United States. It is fun, recreational, and very relaxing (although everyone wants to win!). It gives great flexibility and also helps the mind to think faster. It is easily adaptable and every one can play it. It can be played in any season of the year. It is becoming a leading worldwide team sport and also being enjoyed more and more. Many foreign countries have produced superior teams and players, lately, and they are becoming strong leaders in the sport.

The World's Olympic Committee are discussing whether or not volleyball should be added to the Olympic Sports Program.

## Jr. - Sr. Intramural Scores

Brown	8 - 4
Vold	8 - 4
Groff	7 - 5
Lindekugel	7 - 5
Schnell	7 - 5
Hall	6 - 6
Hicks	3 - 9
Walpole	3 - 9

	G Pts.
Scherlie	10 250
Schnell	12 211
Groff	12 209
Lindekugel	12 196
Vold	12 188

## Groff's Gossip

BY Jim Groff

After getting off to a slow start and losing their first two ball games, the Pierre JV's came back to take 8 of their next 11 games, not losing any games by more than 7 points. Blunt toppled under pressure to the JV's a 64-31 game, the biggest win of the year.

Buddy Cassell a six foot forward for the JV's had the high scoring game of the season with 37 points against Harrold. He also had the high average on the team with a 15.8.

Dennis McQuay was right behind Cassell scoring 26 points in each of the last two games of the year. McQuay finished the year with a 12.7 average per game.

Tim Brooks, Bob Riter, Bill Cravens, Mike Moffatt and Bill Flannery all had between a 5.8 and 3.4 average for the year. Brooks, Riter, Craven, and Moffatt were tough on the boards for the JV's. While Flannery played out front as a guard.

Other members of the team are Dick Finke, Jan Fladeboe, John Burchill, Conrad Smith, Dave Wikholm, Bernie Osberg and Alan LeBeau.

The JV's shot 53.6 per cent at the charity line, while hitting 125 and missing 108 times. Their opponents didn't do quite as well with a 51.2 per cent dropping in 207 and missing 197.

The JV's ran into a little trouble when it came to the fouling part of the game. They racked up a 22.8 average of fouls per game with a total of 297. While the opposing teams were a little more lenient with 197.

The one big help with the JV's was the number of field goals. The team dunked 304, while the defenders could get only 219 through the nets.

When it came to different individuals at the free throw line Bob Riter led the team. Riter hit 29 and missed 14 for a 67.4 per cent. Some of the other leaders were Cassell with 25 hits and 16 misses. Brooks with 17 hits and 12 misses, and Flannery with 16 hits and 13 misses.

With this being only the second year of existence for this club, coach Rog Pries has come a long way in proving that it is a big step for anybody who wants to make the varsity this coming year.

By the way, the annual Senior ALL-STARS vs. the JV's turned out to be quite a game, with the JV's coming out on the long end once again; with a 41-38 win. Leading the JV's was Mike Moffatt with 7 points, followed by Bill Cravens with 6. Burchill, LeBeau, Riter, and Flannery each added 4 to the cause. The ALL-STARS were paced by Darrell Scherlie with 13 points. Dennis added 11, while Dave Hall had 6. Players on both teams saw plenty of action on the basketball court.

## Former PHS Is Champion

Dave Baade, University of South Dakota student and former Pierre Athlete, became Champion of the North Central Conference Wrestling Championship. Baade has been competing in the 191 pound class.

## Vollettes Become Champs

During the past few weeks, the girls P.E. classes have been playing volleyball tournaments during class time. Each team, composed of six to nine players, must play six games. The winning team out of each class met after school, Feb. 19 to play against each other. The captains picked numbers to determine who played first. The four teams were; the Netlets, first period; Dana and the Seven Hoods, fifth period; the Vollettes 11, sixth period; and Ducey's Demons, seventh period. The winning team was the Vollettes 11. Their team members were Sandy Phillips, Kathy Strudell, Sharla McKay, Charlene O'Neill, Janet Peterson, Linda Douglas, and Ava Stout.

Participants in this tournament were from the five-day-a-week classes and the Monday, Wednesday, and Friday classes.

# Resolve Now To Drive Carefully The Future May Be Too Late

IN LESS THAN A SECOND, DEATH....

If you are going to be one of the fatal statistics in the massacre on our highways, you should know that it will be all over in about seven-tenths of a second. This is the way it will happen if your car, traveling only 55 miles an hour, smashes headlong into a tree:

## One-Tenth of a Second

The front bumper and chrome "frosting" of the grill work collapse. Slivers of steel penetrate the tree to a depth of one and one-half inches or more.

## Two-Tenth of a Second

The hood crumples as it rises, smashing into the windshield. Spinning rear wheels leave the ground. The fenders come into contact with the tree, forcing rear parts out over front doors. Heavy structural members of the car begin to act as a brake on the terrific forward momentum of the two-and-one-half ton car. But your body continues to move forward at the vehicle's original speed (20 times the normal force of gravity, your body weight: 3,200 pounds.) Your legs ramrod straight, snap at the knee joints.

## Three-Tenths of a Second

Your body is now off the seat, torso upright, broken knees pressing against the dashboard. The plastic and steel frame of the steering wheel begins to bend under a terrible death grip. Your head is now near the sun visor, your chest above the steering column.

## Four-Tenths of a Second

The car's front 24 inches have been demolished, but the rear end is still traveling at an estimated speed of 35 miles per hour. Your body is still traveling 55 miles per hour. The half-ton motor block crunches into the tree. The rear of the car, like a bucking horse, rises high enough to scrape off low branches.

## Five-Tenths of a Second

Your fear-frozen hands bend the steering column into an almost vertical position. Force of gravity impales you on the steering shaft. Jagged steel punctures lung and intercostal arteries. Blood spurts into your lungs.

For physical well being, be sure to get enough exercise . . . but don't over-exercise your knife and fork.

## Everybody Gives Advice

Keep your eye on the ball.  
Your shoulder to the wheel,  
and your ear to the ground—  
OK? . . . Now try to work in that position.

## Heads vs Tails . . .

The Lord gave us two ends: One to sit on, the other to think with. A man's success depends upon which end he uses most. Heads, you win; tails you lose.

## Journalism Clinic Set For March 27

Mrs. Myers and four or five Journalism students are planning to attend a Journalism Clinic at Stephan on March 27. Approximately 30 schools have been invited to attend. Registration will begin at 9:00 A. M. Saturday morning. The program will begin at 9:45. Governor Nils Boe has accepted an invitation to conduct a press conference with the students. Some of the other speakers expected to attend are Dr. George Phillips, executive-secretary of the South Dakota High School Press Association, Mrs. Cline, Highmore journalism instructor, who will talk about "Feature Writing and Interviews", and Sister M. Dianne Henry from St. Mary's School in Richardton, North Dakota, who will stress "Newspaper Layout and Design". At this Clinic there will also be two sessions on how to improve your yearbook.

## Conference Holds Debates

The Central Forensics Conference held a debate at Riggs High School on Saturday, February 13. Nine schools participated in the event: Highmore, Miller, Mobridge, Gregory, Eureka, Burke, Winner, and Pierre. Highmore and Miller tied for first in the A-experienced division. Winner placed second in this division with a 6-2 record. The PHS freshman team, consisting of Don Porter, Jr., Mike Cunningham, Alan Fleishaker, and Danny May, placed first in the B-inexperienced division with an 8-0 record. Mobridge placed second in this division.

Pierre students who won individual events were: Patricia Mulloy, first in A division oratory; Harlow Hyde, first in A division extemporaneous; Dalene Moore, second in B division oratory; and Blaine Foss, third in B division extemporaneous. Mrs. Sam Ruzick is the PHS debate coach.

## Six-Tenths of a Second

Your feet are ripped from your tightly-laced shoes, or your "loafers" go flying. The brake pedal shears off at the floor boards. The chassis bends in the middle shearing body bolts. Your head smashes into the windshield. The rear of the car begins its downward fall, spinning wheels digging into the ground.

## Seven-Tenths of a Second

The entire, writhing body of the car is forced out of shape. Hinges tear, doors spring open. In one last convulsion, the seat rams forward, pinning you against the cruel steel of the steering shaft. Blood leaps from your mouth, shock has frozen your heart. You are now dead! ---Better Drive Carefully--- Don't you agree?

Reprinted from the Bennett Report  
Careful Driving Resolutions--

1. I will drive my car with a steady hand, a watchful eye, mindful that my own safety and the safety of others demand unwavering attention every minute I'm behind the wheel.
2. I will treat other motorists as I would have them treat me, in the knowledge that good driving is a combination of courtesy, caution and common sense.
3. I will drive defensively by anticipating emergencies and always expecting the other driver to do the unexpected.
4. I will never travel faster than conditions of the road, traffic, and weather permit--never posted legal limits.
5. I will always allow a safe measure of stopping distance ahead remembering that at 50 mph I need 25 times more stopping distance than at 10 mph.
6. I will familiarize myself fully with my car's capabilities and limitations so that I can meet and master any circumstances with skill and confidence.
7. I will have my car periodically checked (especially during winter months and before taking long trips) to make sure it is maintained in proper condition.

## F.H.A.

### Elects State Historian

The theme "It's Time for FHA" was the theme of the meeting of the Future Homemakers of American, region seven, at Wolsey, March 2. One of the main purposes of the meeting was to elect a new state historian. Barbara Holst was the candidate from Pierre.

A lunch was served in the Lutheran Church basement at noon. Shortly after the beginning of the afternoon session, a skit "Let's Take a Look at Ourselves", which showed the latest styles in fashion, was put on by all chapters with Pierre chapter in charge.

The afternoon session ended with the announcement of the new state historian, Jacki Robinson from Redfield. After the closing ceremony, refreshments were served by the Wolsey chapter.

### Scholarship Given To Lower Costs For Books and Supplies

Pierre Jaycettes Scholarship

A new type of scholarship is being offered to the Pierre High School Seniors, sponsored by the Pierre Jaycettes. The approximate \$50 per semester for two semesters may be used for books and school supplies at any college or vocational school the student will attend.

The student receiving the award must have a B or C grade through the entire four years of high school.

The Jaycettes have left the students with higher intelligence out because they feel these people have access to other scholarships. The money is to be used to pay for books and similar school supplies up to the maximum of \$100 per year.

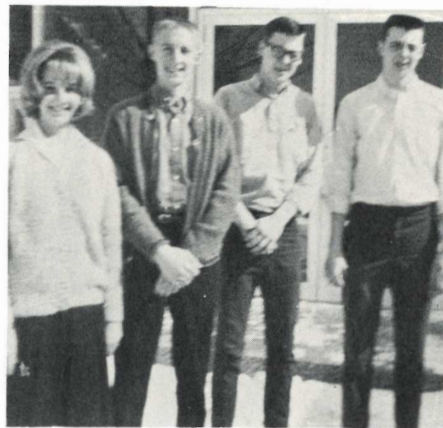

## Stay In School!!

Mr. Flannery, guidance counselor told about high school drop outs, Monday at an F.H.A. meeting. His topic was "Staying In School". Mr. Flannery told how guidance counselors try to talk prospective drop outs into finishing school. He told of the risks which employers take when they hire high school drop outs. Then he pointed out the many benefits and advantages which come with high school graduation.

A business meeting followed. Discussed mainly was the regional meeting at Wolsey, March 2. Pierre chapter is to give a skit on clothing fads and styles. Parts were assigned.

Barbara Holst was chosen as a candidate for State Historian. Eileen Frasier was chosen as voting delegate. Suggestions were given for F.H.A. week. Also discussed was the selling of the new casserole cookbooks. Money from this project is to go to the treasury.

# Double Features

Judy and Jeff Peterson, Burton and Bernie Elliott, two of the three sets of twins in the 1965 graduating class.

The 1965 graduating class is unusual in many ways. Besides being one of the largest classes ever to graduate from Pierre, it can also boast three sets of twins, Burton and Bernie Elliott, Cathleen and Colleen Ducey and Judy and Jeff Peterson.

They all agree that there are several advantages in being twins. Burt and Bernie share clothes, split costs, and can do twice as much for the same cost, as do Cathy and Colleen also. At least when you go somewhere, there is someone to go with.

The Ducey twins say they do not compete in school, but the Elliott twins and the Peterson twins don't agree. One says there is competition and the other says there isn't any competition.

It seems that all three sets of twins have the same response to the question of whether or not a twin is closer than other brothers and sisters. They feel that they are definitely closer.

There seem to be mistakes in identification made quite often between Burt and Bernie.

One of the questions asked was, "How do you feel about being a twin?" Bernie answered, "I never stop to think about it, but I guess it's more fun than if there was only me". Burt replied, "There are worse things to be".

Cathy's response, "I really can't say because I don't know how it feels to be otherwise". Colleen, "It's a little late to feel anything. I sure can't change it now, so I'm happy about it". Jeff briefly comments, "It's okay". Judy enjoys the situation, commenting, "I think it's kind of fun, especially when people find out that Jeff and I are 15 hours apart, he being the older. Our birthdays are also on separate days".

The Petersons, Duceys and Elliotts have about the same interests, with the greatest variation existing with Jeff and Judy. Each twin has decided to go to the same college that his twin is going to attend. Should they be in the same classes, they may be able to play a few tricks with college teachers also.

# Roving Reporter Returns To Riggs

GOOFIN' AROUND

One of the Riggs High roving reporters has been asking questions for the "Governor" during the last couple of weeks. The first question asked was:

"If you were on a tropical island, what would you do with a kiwihiwi?" Here are some of the answers:

Dave Lindekugel--"Nothing, I'm going steady."

Gaylord Sonnenschein--"I'd eat it."

Del Rey Pool--"I'd use it to find birds."

Jill Williams--"I'd find out what it was before I went near it."

Cheryl Stageberg--"I'd watch it."

Jean Flathers--"Clean it."

Mark Vander Pol--"Drink it."

Judy Walsh--"I'd take it home after I shot it."

Margie Carr--"I'd fall in love with it."

Eileen Frasier--"I'd throw it away."

Karen Hosman--"I'd beat it up and throw it away."

Carol Nelson--"It sounds like some kind of dance or food; I'd dance to it."

Don Roed--"I'd use it for shelter."

Carol Hurn--"I would sell it to some poor fool from America and make a million dollars on it."

Elizabeth James--"I'd jump on it and feed it to the sharks."

Kay Ann Miller--"I would have it stand on its head."

Robert Jeitz--"I would take it way back in the woods, hang it on a very large tree, and hollow it out. After I was finished with it, I'd take it back to the beach and sail off on it."

## We Appreciate You

Riggs teachers were surprised with rose bowls March 9 by the Senior P.T.A. "In Sincere Appreciation".

TWIMC

(To Whom It May Concern)

Boys are rotten, through and through,  
They greet a girl and leave her blue,  
All think they're perfect from head to toe,  
But don't let them fool you girls, because you know

Boys will be boys, but they'll never be men.

They'll make you do anything when out on a date.

If you drive up to a fence, they say,  
"Go open the gate!"

When you go by them they give you a look,  
But then they go bite on some other girls hook.

But don't let them fool you girls, because you know.

Some boys are handsome, I must admit that,

But underneath that exterior, beats a heart of pure RAT!!

Don't fall head over heels for their masculine look,

Cuz' you'll soon see that you've been MISTOOK!!

But they won't fool you girls, because you know.

Here is your motto girls, stick to it true,  
"Do unto boys as they do unto you".  
Also boys act like gorillas and think like them too.

Say, by the way, seen that new BOY in school??

-- Pauleen Theim --

## Traces Of Older Generation Discovered In Riggs

Did your mother graduate from Pierre High School? Twenty-two seniors, out of about 170, answered this question "yes" and the rest said "no". The number of "yes" answers represents about 13% of the senior class.

Approximately 14%, or 22 juniors' mothers graduated from Pierre High School.

Twenty-seven sophomores, out of about 187, answered the question "yes". This number represents about 14% of the sophomore class.

Of all the 512 students who answered this question, only 14% said their mothers had graduated from Pierre High School and 86% answered "no".

Did your father graduate from Pierre High School? Twenty seniors, out of 170, answered "yes" to this question. The junior class is represented by 13 "yes" answers. Only sixteen sophomores' fathers graduated from Pierre High.

Approximately 49 of the students answering this question said their fathers graduated from Pierre High, representing only 11% of the total.
