

MISSION STATEMENT

“To cooperatively inspire all students to achieve their potential”.

BELIEF STATEMENTS

We believe:

Education is a life-long endeavor and is continually redefined.

Opportunities are created and goals realized through vision, direction, courage and hard work.

A safe and orderly environment is necessary for quality education.

All students need at least one adult who recognizes them, cares for them passionately, and takes long term responsibility for them.

It is the shared responsibility of the student, family, and school district to be active partners in the pursuit of quality education.

All individuals have worth and they are to treat others and be treated with dignity and respect.
